

# Boiler Replacements

Planned Maintenance Programme

## 2022-2023

***We have accelerated the replacement programme to futureproof our properties ahead of any possible changes to the type of heating that may be necessary to meet climate change targets.***

**Please note that this list is regularly updated and improved.**

It is not uncommon for the programmes to change slightly. We are constantly checking the information held on our Stock Condition Database and this sometimes alters the numbers of properties we include in the programme.

We sometimes find that some tenants do not want certain works carried out for a number of different reasons. If this happens, we include another property.
