Executive Summary

During the monitoring Period of the **1st of April 2021 to the 31st of March 2022** the following things have taken place in the district:

1. Introduction

What is the Authority Monitoring Report?

An Authority Monitoring Report (AMR) is a document produced by Dover District Council and has a number of functions which include:

- Reviewing councils progress in relation to adopted development plan monitoring targets.
- Reviewing the Councils progress of producing the new District Local Plan and other policy documents
- Providing borough-wide planning statistics on housing, employment, environment and transport.
- Recording Consultation and Duty to Co-operate Events
- Reporting on Neighbourhood Planning

What are the key requirements of the Authority Monitoring Report?

The Government's Planning Practice Guidance (PPG) details various pieces of information which Local Planning Authorities (LPAs) should report annually. The PPG states that local planning authorities must publish information at least annually that shows progress with Local Plan preparation; report any activity relating to the duty to cooperate; and show how the implementation of policies in the Local Plan is progressing. Furthermore, LPAs are encouraged to report as frequently as possible on planning matters to communities. This is important to enable communities and interested parties to be aware of progress.

LPAs can also use the AMR to provide up-to-date information on the implementation of any neighbourhood plans that have been made, and to determine whether there is a need to undertake a partial or full review of the Local Plan.

Regulation 34 of the Town and Country Planning (Local Planning) (England) Regulations 2012 sets out what information the reports must contain, although there is other useful information that can be set out. In particular, the report can highlight the contributions made by development, including section 106 planning obligations.

The AMR should be made publicly available.

Time period covered by this AMR

This report refers to data collected within the most recent monitoring year 2021 / 2022, which ran from the **1st of April 2021 to the 31st of March 2022** inclusive.

However, the status and progress of some topics and in particular the status of policy documents mentioned in this AMR are relevant as of March 2023 at the time this report was published. Up to date information about the status of the Local Plan and Planning documents can also be found on the [Dover District Council Website](#).

[Copies of previous AMRs are available and can be downloaded from the website here.](#)

2. Dover Development Plan

Local Development Scheme

Dover District Council is required to prepare and maintain a Local Development Scheme (LDS) in accordance with the Planning and Compulsory Purchase Act 2004 (as amended by the Localism Act 2011). The LDS is a project plan that sets out the timetable for the production of new or revised Development Plan Documents which will form the Council's Local Development Plan.

Cabinet Members approved an update to the Local Development Scheme (LDS) on Monday 5th September 2022. [View the current Local Development Scheme \(Sept 2022\) here.](#)

Current adopted Development Plan Documents

The current development plan for the Dover District sets out the strategic priorities for the development. These include both land allocations and policies covering issues such as climate change, place making, housing, employment, transport, infrastructure, the environment and heritage. These planning policies are used by the council when determining planning applications or enforcing unauthorised development.

The Dover District Core Strategy was adopted in 2010 and The Land Allocations Local Plan in 2015. There are also some saved policies that have been carried over from the Dover District Local Plan 2002. The council are currently in the process of adopting a new district Local Plan which will supersede these existing adopted documents. Alongside the adopted development plan there are a number of background and evidence base documents associated with the existing development plan, these can be viewed on the council's main website on the [Evidence Base](#) page.

Please note that there are also new evidence base documents that have now superseded those created at the time of adopting the current development plan and support the emerging New Local Plan for the period 2020 - 2040. These can be found on the [New Local Plan Website - Evidence Base](#) page (more information below under New Local Plan).

As of March 2023, the below documents create the existing adopted 'Development Plan' for the Dover District:

- Core Strategy (2010)
- Land Allocations Local Plan (2015)
- Saved Policies (2002)
- Worth Neighbourhood Plan (2015)
- Ash Neighbourhood Plan (2021)
- Policies Map
- [Kent Minerals and Waste Local Plan and partial early review](#) (Kent County Council)

Local Plan Policies Map

Dover District Council are required to produce an [Adopted Policies Map](#) in our Local Plan documents. This map shows the location of proposals in all current Adopted Development Plan Documents.

You can also view the [Regulation 19 Policies Map](#) that relates to Policies within the Regulation 19 Submission version of the Local Plan on the [New Local Plan Website](#).

Supplementary Planning Documents and other guidance

Supplementary Planning Documents (SPDs) and Supplementary Planning Guidance (SPG) are intended to provide detailed guidance on how planning policy will be implemented. They can either be topic or area related. Other more informal guidance is also produced to assist with new legislation and design advice when required. The below documents set out the council's position on a range of key topics and are a material consideration for development control purposes.

- Thanet Coast and Sandwich Bay SPA Mitigation Strategy
- Dover Western Heights Masterplan (September 2015)
- Whitfield Urban Expansion Masterplan (April 2011)
- Delivering Affordable Housing through the Planning System SPD (September 2007)
- Affordable Housing SPD Addendum (July 2011)
- Aylesham Masterplan (2005)
- Buckland Mill Planning Brief (2003)
- York Street Site Planning Brief (July 2002)
- St James' Area Planning Brief (July 2002)
- Security Measures for Retail and Commercial Premises (January 2002)
- Affordable Housing Rural Exception Sites (January 2002)
- First homes position Statement (November 2021)

[More information can be found about SPDs and SPGs here on our website.](#)

Conservation Area Appraisals

In addition to the above SPD's and SPG's the councils has a number of approved conservation area appraisals. Unfortunately, the majority of conservation areas do not have appraisals, so the council is working either with local community groups or consultants to address this. Some of our conservation areas have had Article 4 Directions applied. This is a planning tool which limits permitted development rights for dwelling houses in order to ensure that any changes are managed with the character or appearance of the conservation area in mind.

The following conservation areas have appraisals:

- Dover Town Centre
- Kingsdown
- Upper Deal
- Nelson Street, Deal
- Deal South Barracks
- Waterloo Crescent
- Victoria Rd and Wellington Rd
- St Margarets Bay

[More information about Conservation Area Appraisals and Article 4 directions can be found here.](#)

Neighbourhood Plans

The Localism Act 2011 enables local communities to produce Neighbourhood Plans to support development in their area. Neighbourhood Plans are produced by the local community to shape and guide its future development. This may set out their vision for the future and provide general planning policies and proposals to guide development in their neighbourhood.

Neighbourhood Plans must be in general conformity with the policies set out in the adopted Development Plan documents for that area and cannot be used to prevent development. Upon adoption by the Council, such plans will hold the same weight as other Development Plan documents for the district.

Neighbourhood Plans are programmed and led by the designated group, usually the Town or Parish Council. However, the Local Authority has a duty to support groups with the preparation of their Neighbourhood Plans and officers will continue to support parishes with the Neighbourhood Planning process. The first stage in producing a Neighbourhood Plan is to designate a Neighbourhood Area.

For more information about the neighbourhood planning process from designation to adoption, please view the [Locality roadmap on neighbourhood planning](#). Locality are an organisation that advise, help fund, and provide guidance on neighbourhood planning. Their roadmap is a plain English, step-by-step guide to the process.

If you are a town or parish council or community group considering undertaking a neighbourhood plan in your area, contact the Local Plans team for some advice on the process of designation.

2021/22 Update

As of late 2022 there are currently 7 Parish/Town Councils in the district with Neighbourhood Area Designations who are at different stages of the planning process. Currently there are two adopted neighbourhood Plans within the Dover District; Ash and Worth. Ash was adopted within this monitoring year; in June 2021. More information about the adoption of this plan can be found here: [Ash Neighbourhood Plan \(dover.gov.uk\)](#)

More information about all the Neighbourhood Designated areas in the district can be found here on the [council's website](#). However, please contact the neighbourhood Plan group directly for specific information on their plans and progress.

New Local Plan to 2040 – Progress Update

The new Dover Local Plan sets out the vision, strategic objectives and overarching development strategy for the growth of the District over the period to 2040. It provides the planning policy framework to guide the future development of the area, addressing needs and opportunities for housing, the economy, community facilities and infrastructure, as well as the basis for conserving and enhancing the natural and historic environment, mitigating and adapting to climate change, and achieving well designed places. It will comprise:

- a vision for the future of the district;
- the amount of housing, employment and retail development needed in the district;
- strategic policies;
- site allocations;
- and policies map.

During early 2021, the first draft of the Local Plan (known as Regulation 18) was consulted on for a period of 8 weeks.

The Council have recently consulted on the Regulation 19 Submission version of the Local Plan to 2040 for a period of 7 weeks from the 21st of October to the 9th of December 2022. In total over 1900 representations were made from over 500 representors. Of the total representations received 8 were group / petition representations totalling to 1706 additional representors.

Once representations from the consultation have been processed the Council will submit the Local Plan to the Planning Inspectorate, as in accordance with the timetable set out in the Local Development Scheme 2022, expected to be in quarter 1 of 2023.

Further details and supporting evidence base for the new Local Plan to 2040 can be found on the following link: www.Doverdistrictlocalplan.co.uk

3. Monitoring Current Adopted Plan Policies

This chapter provides an update on the Councils position in relation to targets set out in the relevant policies from the adopted Core Strategy (2010) and Land Allocations Local Plan (2015).

The following Red, Amber, Green (RAG) system has been used to monitor the performance of adopted planning policies within these documents. Further analysis and commentary is added below these tables to explain the rating given.

Red	Amber	Green
None of minimal progress has been made towards meeting the core strategy Target	Progress has been made towards meeting the Core Strategy Target however further work is required	The Core Strategy target has either been met or significant progress has been made

In addition the Council has a set of its own general monitoring indicators in the adopted Core Strategy which are reported on annually. See Appendix A: Monitoring Indicators for the update to those.

Policy CP1: Settlement Hierarchy

The table below measures the performance of CP1.

Policy CP1: Settlement Hierarchy		Performance Summary
Core Strategy Target	Settlements need to maintain their range of facilities together with public transport links in order to maintain their position in the hierarchy	

Table 1 – Policy CP1

It is important that local and village centres maintain their range of facilities to ensure their vitality and viability and therefore keep their position in the Settlement Hierarchy. A review of the existing settlement hierarchy has been conducted as part of the Regulation 19 Submission Local Plan [Evidence Base](#) here.

Policy CP2: Provision on Homes and Jobs between 2006 and 2026 (Commercial)

Policy CP2, covers both commercial and housing. It will therefore be covered in both employment and housing sections. This is the commercial indicator results. In summary, commercial floorspace completions are below the levels envisaged by the Core Strategy.

Policy CP2: Provision of Homes and Jobs between 2006 and 2026 (COMMERCIAL)		Performance summary
Core Strategy Target	Provision will be made for the following: <ul style="list-style-type: none"> - Approximately 200,000sqm of Employment floorspace. - 35,000 sqm of retail floorspace - 14,000 additional homes (of which 10,100 units to be delivered by 2026) 	

Table 2 – Policy CP2

Table 5 below sets out the net gains in commercial floorspace¹ from 2006 (the Core Strategy base date) to 2022 along with the total commercial competitions in the monitoring year 2021/22 to compare against the targets in Policy CP2.

Within the monitoring period 2021/22 the district gained a gross total of 5,811sq.m of additional commercial floorspaces, new learning, non-residential institutes or community facilities and lost 216sqm of floorspace classified as ‘Sui Generis’. There were also some losses.

	Gain Complete (+) (sqm of Floorspace)*	Gain Under Construction (+) (sqm of Floorspace)*	Loss Complete (-) (sqm of Floorspace)*	Net Gain Complete
Employment: (E, A4, A5, B1, B2, B8, D1, D2)	8860 sqm	19837 sqm	3049 sqm	5811 sqm
C1*	6 Bedrooms	9 Bedrooms	9 Bedrooms	-3 Bedrooms
Learning and Non Residential Institutions (F1)	0	0	0	0
Community Facilities (F2)	0	0	0	0
Sui Generis	189 sqm	172 sqm	405 sqm	-216 sqm
Total	9049 sqm	20,009 sqm	3454 sqm	5535 sqm

Table 3 – Commercial Floorspace gains and losses 2021/22

* Commercial Floorspace is measured in meters squared apart from C1 which is measured in bedroom numbers.

The net total amount of commercial floorspace gained for the monitoring period is 5,535sqm. The biggest sites that contributed to the districts completed commercial gains in floorspace are from the following applications:

Planning Application	Address	Description
20/00711	Marleybrook House & adjoining land – Preston	Wedding venue and place of assembly
14/00262	Fowlmead Country Park – Deal	Visitor centre
21/00849	Unit 4 Aylesham Industrial Estate – Aylesham	Building for storage and distribution

Table 4 – Sites which included commercial floorspace gains.

¹ Commercial Floorspace includes employment, retail, non-residential institutions, community facilities and Sui Generis

There is currently 19,837sqm of commercial/employment floorspace under construction at the end of March 2022.

2020 Use Classes Order

In September 2020 new use classes were introduced for employment, retail, some residential and community uses, below is a brief summary of how these use classes have changed. The new use classes that make up commercial floorspace can be split into the below categories:

• Employment (Including Retail)
• Non-residential Institutions
• Community Facilities
• Sui Generis

Use Class up to 31 st Aug 2020	New Use Class* Sept 2020	Description
A (1,2,3)	E (a,b,c - i,ii,iii,)	<p>Ea) Shops</p> <p>Eb) Use, or part use, for all or any of the following purposes: Food and drink which is mostly consumed on the premises</p> <p>Ec) The following kinds of services principally to visiting members of the public:</p> <p>i. financial services</p> <p>ii. professional services (other than medical services)</p> <p>iii. any other services which it is appropriate to provide in a commercial, business or service locality.</p>
B1a	E g) (i,ii,iii)	<p>Eg i) Office (exempt from those specified in A2)</p> <p>Eg ii) Research and Development</p> <p>Eg iii) Any other services which it is appropriate to provide in a commercial, business or service locality</p>
B2	B2	General Industry
B8	B8	Storage and Distribution
C1	C1	C1 - Hotels, boarding and guest houses
New	E (d,e,f)	<p>Ed) Indoor sport and recreation</p> <p>Ee) Medical services</p> <p>Ef) Non-residential creche, day centre or nursery</p>

New	F1	F1) Learning and non-residential institutions
	F2	F2) Local Community Uses
New	SUI GENERIS (SG)	Uses which do not fall within the specified use classes above, including those specifically identified in Article 3(6) of The Town and Country Planning (Use Classes) Order 1987:
A4	N/A	Now Sui Generis from September 2020
A5	N/A	Now Sui Generis from September 2020
B1	N/A	Now E Class from September 2020
B1 – B8	N/A	Now E Class from September 2020
D1	N/A	now split across Class E and F1
D2	N/A	Now Sui Generis from September 2020

It is important to note that for commercial floorspace monitoring, all extant consents granted under the former use classes will be related to the new use classes.

Policy CP5: Sustainable Construction Standards

Policy CP5 Sustainable Construction Standards		Performance Summary
Core Strategy Target	<p>New residential development permitted after the adoption of the Strategy should meet Code for Sustainable Homes level 3 (or any future national equivalent), at least Code level 4 from 1 April 2013 and at least Code level 5 from 1 April 2016.</p> <p>New non-residential development over 1,000 square metres gross floorspace permitted after adoption of the Strategy should meet BREEAM very good standard (or any future national equivalent).</p> <p>Where it can be demonstrated that a development is unable to meet these standards, permission will only be granted if the applicant makes provision for compensatory energy and water savings elsewhere in the district. The Council will encourage proposals for residential extensions and non-residential developments of 1,000 square metres or less gross floorspace to incorporate energy and water efficiency measures.</p>	

Table 5 – Policy CP5

The Code for Sustainable Homes was introduced in 2006 and was an environmental assessment method for rating and certifying the performance of new homes. The code was later withdrawn by the Government who adopted another assessment method. Therefore, no residential application permitted in the district after the code was withdrawn has been subject to this standard and no further monitoring has been conducted.

Although the Code for Sustainable Homes has been withdrawn Policy CP5 still requires non-residential applications of over 1,000 sqm to meet BREEAM very good standard (or any national equivalent).

The below commercial applications have been permitted in the 21/22 monitoring year that are over 1,000 sqm floorspace and were assessed against Policy CP5:

- 21/00611 - Land adjacent to Lidl, east of Honeywood Parkway
- 20/01220 - Dover Marina Curve Phase 1b, Dover Harbour

Policy LA1: Provision for Gypsies, Travellers and Travelling Showpeople

Policy LA1: Provision for Gypsies, Travellers and Travelling Showpeople		Performance Summary
Core strategy Target	Allocate site(s) to meet the additional need for an additional 17 pitches	

Table 6 – Policy LA1

The Core Strategy target set out above is now considered out of date. However, in 2017, the Council commissioned consultants Arc4 to undertake a Gypsies, Travellers and Travelling Show people Accommodation Needs Assessment (known as the GTAA 2018) to provide an up-to-date picture of current provision and activity across the district as well as an assessment for future need during the plan period for the emerging Local Plan.

The 2018 GTAA set out how many pitches will be needed for the new Local Plan period and the immediate 5-year period. The GTAA 2018 was updated again in January 2020 to inform the need for pitches for the new Local Plan period which was extended to 2040 (from 2037).

The Local Plan (Regulation 19 Submission) sets out the council's strategy for meeting Gypsy and Traveller pitch need over the plan period and identifies sites that will contribute to the council demonstrating a 5 year supply of land and for pitches. More information can also be found in the [Housing Topic Paper September 2022 \(doverdistrictlocalplan.co.uk\)](https://www.doverdistrictlocalplan.co.uk).

In the 2021/22 monitoring year 17 pitches were granted, **as shown in green text**. In total, since the 2018 GTAA, 34 new pitches have been granted permission.

Planning Application	Address	Date Granted	Pitches (Net)
17/00674	Land at Alkham Valley, Alkham, CT15 7EW	26/01/2018	6
18/00658	Caravan plot 4, Rose Garden, Hay Hill, Eastry	24/10/2018	2
19/00235	Plot 2B, Bluebell Place, Hay Hill Eastry	05/07/2019	1
19/00320	Alice Gardens, Plot 2A, Hay Hill, Eastry	07/07/2019	1
19/01177	Caravan Plot 3, Strawberry Place Hay Hill, Ham	22/11/2019	4
19/01063	Plot 1C, Land at Hay Hill, Ham, CT14 0ED	22/11/2019	1

19/01062	Plot 1A, Land at Hay Hill, Ham, CT14 0ED	22/11/2019	1
19/01056	Plot 1B, Land at Hay Hill, Ham, CT14 0ED	22/11/2019	1
20/00838	Midgard Guston Road East Langdon Dover Kent CT15 5JE	07/07/2021	1
21/00614	Meadows Caravan Site, Alkham Valley Road, Alkham ,CT15 7EW	04/10/2021	10
20/00921	Strawberry Place, Hay Hill, Ham, CT14 0ED	07/10/2021	6
Total			34

Table 7 – New Gypsy and Traveller Pitches Granted since 2018.

Housing Delivery Policies

Housing Delivery over the monitoring period

Over the monitoring period 1st of April 2021 to 31st of March 2022 **625 dwellings** have been completed across the district.

Of the total 625 completions 361 (58%) were on Development Plan allocated housing sites, which is positive as it shows the sites in the Core Strategy and Land Allocations Local Plan are being Delivered. 391 (63%) of these dwellings were completed on greenfield land² and 234 (37%) dwellings were completed on brownfield land³ over the monitoring period.

There are 5,150 dwellings that have planning permission and 860 of those dwellings are currently under construction as of 31st March 2022. These are known as **Extant Permissions**, and a full breakdown of these planning applications for new dwellings can be found in **Appendix B** of this report.

Further monitoring and analysis of housing provision across the district is explored in the sections below.

Housing Land Supply

- At 1 April 2022 Dover District Council (the Council) has a Local Housing Need of **611 dwellings per annum**, which means a requirement of 3,055 dwellings over the five year period (2021-2026).
- The Council at 1st April 2022 can demonstrate **6.03 years worth of housing supply** measured against the Governments housing land supply calculation.
- There are 3,868 dwellings within the Councils housing land supply that are deemed deliverable within the next five years.
- During the monitoring year 2021/22 there were 625 dwellings (net) completed, the highest level of new dwellings completed in the District in over five years.

² Land that has not been previously developed

³ Land which is or was occupied by a permanent structure as per definition in NPPF [Annex 2:Glossary](#)

- The current housing delivery test result is **88%** for the reporting year 2018-19, 2019-20 and 2020-21 as confirmed by [DLUHC publication](#) in January 2022 and this offer the Council the opportunity to apply a 5% buffer to its 5 year housing land supply calculation.
- The Council anticipates that the next housing delivery test result will be approximately **102%** for the reporting years, 2019-21, 2021-22, 2022-23 and if confirmed, this will allow the Council to continue use of a 5% buffer on the 5 year housing supply calculation.

The full position in relation to Five Year Housing Land Supply calculation is set out in the [Five Year Housing Land Supply 2022 – 2027 \(dover.gov.uk\)](#).

Policy CP2: Provision of Homes between 2006 and 2026

Policy CP2 covers both commercial and housing. It will therefore be covered in both sections. This relates to the housing numbers only.

Policy CP2: Provision of Homes and Jobs between 2006 and 2026		Performance summary
Core Strategy Target	Provision will be made for the following: <ul style="list-style-type: none"> - Approximately 200,000sqm of Employment floorspace. - 35,000 sqm of retail floorspace - 14,000 additional homes (of which 10,100 units to be delivered by 2026) 	

Table 8 – Policy CP2

Progress has been made regarding the delivery of housing across the district with a total net gain of 6,019 units between the beginning of April 2006 and end of March 2022 which is 59% of the Core Strategy Target of 10,100 homes to be delivered by 2026 as per the Core Strategy (2010).

Figure 1 below sets out the total net housing completions between 1st of April 2006 and 31st of March 2022. As show, the 21/22 monitoring year shows the second highest annual delivery rate of housing since 2006, and steadily growing each year since 2017.

Figure 1 – Total Housing completions per annum 2006 - 2022

Policy CP3: Distribution of Housing Allocations

Policy CP3: Distribution of Housing Allocations		Performance Summary
Core Strategy (2010)	<p>Land will be allocated to meet the housing provisions of Policy CP2 in accordance with the following distribution.</p> <p>Dover: 70% Deal: 10% Sandwich: 5% Aylesham: 7% Rural 8%</p>	

Table 9 – Policy CP3

Housing Completions by Location 2021/22

The following completions took place across the district during the monitoring period for 2021/22

Location	Completions 2021/22	Percentage
Dover	153	24%
Deal	31	5%
Sandwich	68	11%
Aylesham	106	17%
Rural	267	43%
Total Completions	625	

Table 10 – 21/22 Housing completions by location

Figure 2 - 21/22 Housing completions by location.

Distribution of Housing completions during the period of 2006 – 2022

Table 13 and Figure 3 below shows the distribution of actual housing completions over the period 2006 -2022 against the Core Strategy Targets for Location of Housing.

Location	Completions 2006 -2022	Percentage
Dover	2208	35%
Deal	1715	27%
Sandwich	155	2%
Aylesham	1112	17%
Rural Areas	1179	19%
Total	6370	

Table 11 – 2006-2022 Housing completions by location

Figure 3 - 2006-2022 Housing completions by location

During the period between 2006 - 2022 it can be seen that the Dover urban area has delivered 35% of all housing completions, Deal 27%, Sandwich 2%, Aylesham 17% and rural areas 19%. Therefore Deal, Aylesham and the rural areas have seen a higher number of completions than was planned for in Policy CP3 and Dover and Sandwich have seen fewer housing completions as a proportion of planned growth.

Dover has seen fewer housing completions than planned for over the period 2006 - 2022 as the Strategic Allocations at Whitfield and Connaught Barracks are behind in anticipated delivery rates envisaged (see Chapter 4). This means that other locations in the district have seen a higher proportion of growth than was originally planned for.

Policy CP4: Housing Mix, Quality & Design

Table 12 and Figure 4 Below shows the future housing mix by tenure as identified in the SHMA 2017

Policy CP4: Housing Mix, Quality & Design		Performance Summary
Core Strategy Target	<p>The original proportions of Policy CP4 (as outlined in the adopted core strategy 2010) have been adjusted by market information including the 2017 Strategic Housing Market assessment (2017) and are as follows:</p> <p>Owner Occupied Dwellings: 1 bed homes: 4.3% 2 bed homes: 19.7% 3 bed homes: 43.7% 4 bed homes: 32.3%</p> <p>Shared Ownership: 1 bed homes: 24.4% 2 bed homes: 34.1% 3 bed homes: 27.8% 4 bed homes: 13.7%</p> <p>Affordable Rent / Social Rent 1 bed homes: 28.2% 2 bed homes: 13.1% 3 bed homes: 25.5% 4 bed homes: 33.2%</p>	

Table 12 – Policy CP4

Figure 4 Future Housing mix identified in SHMA 2017

It can be seen in figure 4 that a different housing mix is required in each tenure to meet future requirements. In the owner occupier category, more 3 and 4 bed units will be needed, in the affordable rent category more 4 bed and 1 bed units will be required and in shared ownership more 2 and 3 bed units.

New Housing Permitted – Mix of size

Table 13 and Figure 5 below show the housing mix permitted during the monitoring year 2021-22. ⁴

	2021/ 22 Dwelling Permitted	Percentage
1 Bedroom	141	16%
2 Bedroom	291	32%
3 Bedroom	364	41%
4 Bedroom	101	11%

Table 13 – 21/22 Housing Mix permitted

⁴ This excludes outline planning permissions granted because we are awaiting the final housing mix.

Figure 5 – Housing Mix Permitted

Figure 6 Below illustrated the housing mix permitted between 2011 and 2016 against the required mix in Policy CP4

Figure 6 – CP4 requirement v Actual Permitted housing mix 2011-2016

The chart shows over this period more 4 bedroom homes have been permitted as a proportion of the housing mix and fewer 1, 2 and 3 bedroom homes as a proportion of the housing mix than policy requirements. Although more 2 and 3 bedroom homes have been permitted overall which is in compliance with the Policy CP4.

Figure 7 below plots the actual permitted mix between 2017 and 2022 against the adjusted housing mix identified in the SHMA (2017).

Figure 7 – SHMA 2017 v Housing Mix permitted 2017-2022

Figure 7 shows that over the period 2017 - 2022 the required amount of 1 and 3 bedroom homes have been built in line with the indications in the updated SHMA (2017). It can also be seen that more 2 bedroom homes have been permitted than is required in the adjusted housing mix (SHMA 2017) and fewer 4 bedroom homes have been permitted. It is however anticipated the mix will begin to better reflect the housing mix as set out in the 2017 SHMA as more permissions are granted.

Of the dwellings granted permission over the monitoring year 2021/22⁵ the following types of dwellings were granted permission. Although it is not specified in CP4, it is beneficial for the district to have a range of dwelling types.

Type of dwelling	Planning Permissions Granted in Monitoring Period 2021/22
Houses	1085
Flats / Maisonettes	168
Bungalows	14

Table 14 – Types of dwelling permitted in 21/22

Affordable Housing

The Provision of affordable housing in the district is a key response to the pressure of housing affordability. Affordable housing can either be provided by the Council, other affordable housing providers, or registered social landlords operating locally. New Affordable Housing can either be the result of the direct construction of new properties (either as part of a development or a stand alone development) or through the purchase of open market properties for use as affordable housing.

The Councils policy on affordable housing, DM5 of the Core Strategy (2010), requires residential development of 15 or more dwellings to provide 30% of the total homes as affordable homes and

⁵ This figure excludes 20/00419 (Betteshanger Sustainable Parks, Betteshanger Road, Betteshanger) as housing type has not been determined at outline stage

for developments of between 5 and 14 dwellings to make a contribution towards the provision of affordable housing in the District. ⁶

Table 17 below sets out affordable housing completions in the District since 2006. During the monitoring period 116 affordable housing units were completed in the district.

Year	Total Housing Completions	Total Affordable Homes
2006/07	327	64
2007/08	342	15
2008/09	269	54
2009/10	262	112
2010/11	201	18
2011/12	227	67
2012/13	228	96
2013/14	228	28
2014/15	344	110
2015/16	726	185
2016/17	406	78
2017/18	446	99
2018/19	446	32
2019/20	442	37
2020/21	494	75
2021/22	625	116
Total	5785	1186

Table 15- Total Housing Completions Vs Affordable Housing Completions 2006 -2022

Over the monitoring period, planning permission was granted for a further 150 affordable housing units which should help maintain delivery of affordable housing in the future.

Self Build and Custom Housebuilding

The Self Build and Custom Housebuilding Act 2015 requires relevant authorities including Dover District Council to Keep a register of individuals and associations who are seeking to acquire serviced plots of land for self build and custom housebuilding.

The Self-Build Register is used to inform the Council of the needs within the district, and is split into two parts; Part One and Part Two. Those with a local connection to the Dover District, and with the ability to evidence their financial capacity to carry out a Self-Build project will be eligible to join Part One of the Register.

The Council's obligations regarding Self-Build are related to the amount of people on Part One of the Self-Build register, in accordance with the Self-build and Custom Housebuilding Act 2015 (as amended by the Housing and Planning Act 2016). Those without a local connection to the Dover District, or who cannot provide evidence of their financial ability to carry out a self-build project can be placed on Part Two of the register.

More information can be found here: [Self-Build and Custom House Building Register \(dover.gov.uk\)](https://www.dover.gov.uk/self-build-and-custom-housebuilding-register)

⁶ A Court of Appeal judgement upheld the government decision to exempt developments of 10 houses or fewer from Section 106 of the Town and Country Planning Act 1990, which enables local planning authorities to seek contributions from developers to provide affordable housing and mitigate the impact of developments.

	Registrations	Part 1	Part 2	Total
Total Registrations as of 30 October 2019 (On previous register without tests)	167	N/A	N/A	167
Total Registrations as at 30 th October 2020 (register with tests)	N/A	4	2	6
Total Registrations as at 30 th October 2021 (register with tests)	N/A	4	7	11
Total Registrations as at 30 th October 2022 (register with tests)	N/A	9	9	18

Table 16 – Self Build Register update October 2022

In the Monitoring year 2021/22 2 Planning Applications have been granted for 13 self-build plots.

Application Number	Date Granted	Address	Description
21/01528	25/11/2021	Outbuildings at Fieldings, Stoneheap Road, East Studdal, CT15 5BU	Change of use and conversion of existing outbuilding to 'Self-build and Custom Build ' residential dwelling and demolition of existing outbuildings
20/00419 (Outline)	27/07/2021	Betteshanger Sustainable Parks, Betteshanger Road, Betteshanger, CT14 0EN	Outline application with all matters reserved for up to 210 dwellings including up to 12 self-build plots, together with up to 2,500 sqm of office (use class B1) floorspace and up to 150 sqm of retail (class E) floorspace

Table 17 – Self Build plots granted 21/22

The emerging Local Plan (Regulation 19 Submission document) contains Policy H5-Self-Build and Custom Housebuilding. This policy is to support Self build and Custom housebuilding schemes on housing sites allocated in the Local Plan and on non-allocated windfall developments. This is to meet the needs of the self-build register as well as to provide a sustainable and diverse mix of dwellings within the district.

4. Delivery of Strategic Sites

The Council is in the process of delivering a number of strategic sites across the district that are allocated in the Core Strategy (2010). This chapter provides an update on the progress being made to deliver these sites.

Dover Waterfront

Policy CP8: Dover Waterfront		Performance Summary
Core Strategy Target	Policy CP8 of the Core Strategy (2010) allocates the Dover Waterfront site for a mixed use scheme including retail (A1 uses up to 20,000 square metres floorspace), restaurants, cafés and drinking establishments (A3 and A4 uses up to 7,000 square metres), assembly and leisure (D2 uses up to 15,000 square metres), residential (C3 use of at least 300 homes), offices (B1) and hotel (C1) uses.	

Table 18 – Policy CP8

Officers from DDC have been working in partnership with Dover Harbour Board, a landowner, a range of stakeholders and local organisations on proposals for the Dover Waterfront area. The work, which will now be incorporated into the Local Plan, will create a mixed-use development that will complement and build on the momentum generated by the opening of the St James’s development. It will improve connections with the town centre and create a continuous commercial area stretching from the St James’s development to the seafront. The site's location offers a unique opportunity to create a mixed waterfront development, but it also brings with it the challenge associated with bringing forward a regeneration scheme next to a busy trunk road in a manner that complements the town centre.

In June 2021 the Port of Dover opened the Clock Tower Square which is a new public realm area located on the Marina Curve. Following on from the opening of the new Dover Pier the Clock Tower Square provides 1,000 sqm of public realm space as part of the Western Docks Revival Project.

Further progress is being made on the Marina Curve with two planning applications being approved in December 2021:

- 20/01236 Dover Marina Curve Phase 1a - for the erection of three (three and four storey) motel buildings (90 bedrooms in total).
- 20/01220 Dover Marina Curve Phase 1b - for the erection of mixed use development comprising a swimming pool, restaurant and bar.

In July 2021 Planning Permission was granted for Protea House in Waterloo Crescent:

- 20/01410 Protea House, Waterloo Crescent - Change of use and conversion to 9 self-contained flats, replacement of windows to rear elevation and repair of windows; creation of vent stack, works to the railing to form bin store and replacement of glazed single storey addition

Further details on future plans for the Dover Waterfront can be found in the emerging Dover District Local Plan Regulation 19 Submission Document.

Dover Mid Town

Policy CP9: Dover Mid Town		Performance Summary
Core Strategy Target	Policy CP9 of the Core Strategy (2010) allocates the Dover Mid Town area for mixed use development of C2 uses (residential institutions), C3 uses (residential of at least 100 homes), A1 shop uses, A3 restaurant and café uses and A4 drinking establishment uses (of up to 15,000 square metres), D1 (non-residential institutions), the redevelopment of South Kent College (around 5,000 square metres), and parking to serve the development and the town centre.	

Table 19 – Policy CP9

The development of Dover Mid Town area is considerably behind the milestones set in the delivery programme in the Core Strategy (2010) which estimated that plans and construction phases of this area would now be complete. However, there are a number of challenges in the development of the Mid Town site due to complex land ownership and physical constraints on site as part of this area falls within flood zone.

A study has been completed looking at the potential flood mitigation options for the site. This has been published as part of the evidence base for the new local plan <https://www.doverdistrictlocalplan.co.uk/uploads/pdfs/dover-mid-town-flood-modelling.pdf>.

The future proposals for the mid-town area are being considered alongside a wider strategy and programme of activity for the town centre, and form part of the proposed Dover Town Centre Strategy set out in the emerging Local Plan to 2040.

Connaught Barracks

Policy CP10: Connaught Barracks		Performance Summary
Core Strategy Target	Policy CP10 of the Core Strategy (2010) allocates the former Connaught Barracks complex for residential development (C3 use), with 500 dwellings planned for the site.	

Table 20 – Policy CP10

Homes England has transferred the ownership of two parts of the former Connaught Barracks site (Fort Burgoyne and the former training area) to the Land Trust.

Progress is being made to develop the rest of the site: A reserved matters application has been granted for the Officers' Mess site for 64 units (18/00981) and work has commenced on site with the first completions from this application being anticipated in 22/23.

An outline planning with all matters reserved for the erection of up to 300 dwellings was approved (19/00447) in September 2021 for the remainder of the Connaught Barracks site. The development of Connaught Barracks is considerably behind the timescales set out in the delivery plan in the Core Strategy (2010), mainly due to its complex nature and infrastructure issues set in a sensitive setting.

A new policy for Fort Burgoyne is included in the Regulation 19 Submission Local Plan.

Whitfield Urban Expansion

Policy CP11 – Whitfield		Performance Summary
Core Strategy Target	Policy CP11 of the Core Strategy (2010) allocates the site to the west, north and east of Whitfield for an urban expansion comprising of at least 5,750 homes supported by transport, primary education, primary health target and social care, utility services and green infrastructure together with retail, financial and professional offices, eating and drinking establishments (Use Classes A1 to A5.)	

Table 21 – Policy CP11

The Whitfield Urban Expansion (WUE) SPD was adopted by the District Council in April 2011. Outline planning permission for 1,250 homes has been granted under Phase 1 of the WUE(10/01010) and outline permission has been granted for the construction of a new community hub/district centre and other required infrastructure (10/01011).

A total of 186 dwellings are now complete under Phase 1 and sub Phase 1a. In addition;

- Work has now completed on the planning application for 26 dwellings under Phase 1a (17/00056)
- BDW Homes have completed 26 of the 67 units granted under 18/01238a.
- Work is complete on the Whitfield Aspen Primary school located in Phase 1 of the development and the school opened in 2021.
- The separate full application for the Singledge Lane scheme from Abbey Homes (16/00136) has 119 completions (of 133 permitted).
- Application for 1c (Barratts) for 32 dwellings has 30 completions and 2 extant.
- A further application has been granted planning permission for 221 dwellings as part of Phase 1d of the WUE (20/00718).
- Permission has been granted for the erection of a convenience store on Phase 1 of the WUE (20/00644).
- The total number of overall completions from the Whitfield Urban Expansion stands at 363 as of 31st March 2022 (including completions from Singledge Lane). There is extant consent remaining on the outline for Phase 1 for 655 homes.
- There are several new applications for Phase1c being considered in 2022 for (22/00029, 22/00211, and 22/00219)

Planning permission was obtained from KCC in March 2021 for the Dover Fastrack scheme which is a dedicated electric rapid bus service linking the development at Whitfield with the Dover Town Centre and other transport links. The project is underway and more details on the route and timetable can be found here: [Dover Fastrack](#)

Summary

Whilst progress has been made on delivering the strategic allocation at Whitfield it must be acknowledged that the overall timetable for the delivery of the WUE is behind schedule in the Core Strategy. The phasing and delivery of the WUE will be reconsidered in the local plan review process.

For further details of the future of strategic allocation at Whitfield can be found in the emerging Local Plan.

White Cliffs Business Park

Policy LA2: White Cliffs Business Park		Performance Summary
Core Strategy Target	This site is allocated for employment development. Planning permission for Phases II and III will be permitted provided that relevant criteria is adhered to	

Table 22 – Policy LA2

The White Cliffs Business Park is a key employment allocation and in turn one of the key sources of employment in the District. Progress has been made regarding attracting new businesses and future development to the business park and over the monitoring year the following progress has been observed in relation to the business park.

Planning permission has been granted for 22 small business starter units on land adjacent to Lidl on Honeywood Parkway in September 2021 (21/00611), however an application to vary the use class was granted under 22/00730 in 2022.

The Department for Transport (DfT) has brought forward proposals under a Special Development Order to create a temporary Inland Border Facility on Phase III of the WCBP. However, at the time of writing the DfT's intentions for the site are unknown as the IBF is no longer required.

Further details of the future of strategic allocation here can be found in the emerging Local Plan.

Aylesham Village Expansion

Policy		Performance Summary
Local Plan 2002 target	Land allocated for up to 1,000 dwellings, formal playing fields, children's play, employment land, primary school and food retail.	

Table 23 - Aylesham

Policies for the expansion of Aylesham are saved from the Local Plan 2002 (AY1-AY11) and are part of the current development plan for the district. It is considered that the development in Aylesham is being successfully delivered against these policy targets.

To date 1,360 units have been granted planning permission at Aylesham as part of the village expansion with approximately 1,000 units being delivered on the site since 2015 (103 of these in 21/22 monitoring year). In August 2020 a S73 application (19/00821) was granted planning permission adding a further 150 dwellings to the total number of houses approved for the expansion of Aylesham, under the previous outline application (07/01081).

Work has started on a reserved matters application which was granted planning permission in August 2020 for 50 units under Phase 2b of the village expansion (20/00384) with 44 of the 21/22 completions on this phase.

5. Infrastructure and developer obligations

What are Obligations / Section 106 Agreements?

Planning obligations are legal obligations entered into as part of a planning application to mitigate the impacts of a development proposal by providing different types of infrastructure. Planning obligations are also commonly referred to as ‘section 106’, ‘s106’, as well as ‘developer contributions’ or ‘Community Infrastructure Levy’ (CIL).

It is not the Council's intention to introduce CIL in the district as Section 106 legal agreements are considered to provide a greater level of certainty for delivery of specific infrastructure. Further, changes to the CIL Regulations in 2019 now allow for more than five contributions to be pooled together, removing what was a significant impediment to securing Section 106 funding from smaller sites.

Policy CP6: Infrastructure

Policy CP6: Infrastructure in the adopted Core Strategy (2010) sets out what infrastructure is to be provided in the district over the Plan period.

Policy CP6: Infrastructure		Performance Summary
Core Strategy Target	Development that generates a demand for infrastructure will only be permitted if the necessary infrastructure to support it is either already in place, or there is a reliable mechanism to ensure that it will be provided at the time it is needed. In determining infrastructure requirements applicants and infrastructure providers should first consider if existing infrastructure can be used more efficiently, or whether demand can be reduced through promoting behavioural change, before proposing increased capacity through extending or providing new infrastructure	

Table 24 – CP6

Due to the length of time since the 2010 plan set out the infrastructure requirements, the position on need and supply has changed significantly and reporting on the projects is now not considered to be effective. However, the Council has prepared a draft Infrastructure Delivery Plan which was consulted upon in late 2022. An Infrastructure Delivery Plan (IDP) sets out:

- Current Infrastructure and whether its at capacity (Based on other evidence base and communication with providers)
- Planned Infrastructure and Strategies (including current S106 agreements)
- Future Infrastructure needs
- The timing, costs and delivery partners
- Potential funding solutions

This enables DDC to determine which projects are required to have funding directed to them when S106 agreements are being created. More information about Planning Obligations and the emerging Infrastructure Delivery Plan can be found here: [Infrastructure and Section 106 FAQ's \(doverdistrictlocalplan.co.uk\)](https://doverdistrictlocalplan.co.uk)

Monitoring developer obligations

The Council is required to publish an Infrastructure Funding Statement (IFS) once a year under the Community Infrastructure Levy (CIL) regulations (as amended on the 1st September 2019).

The IFS sets out details of S106 developer contributions and contains;

- Summary of all financial developer contributions agreed in the monitoring year
- Amount of developer contributions held by the authority at the start of the monitoring year
- Details of developer contributions received and spent during the monitoring year
- Details of infrastructure the authority is intending to either wholly or part fund through S106
- Report on estimated future S106 income from developer contributions

Headline Figures from 21/22 IFS:

Monetary Contributions	
Total money to be provided through planning obligations agreed in 2021-22	£4,206,094
Total money received through planning obligations (whenever agreed) in 2021-22	£2,450,231
Total money received through planning obligations (whenever agreed), spent in 2021-22	£1,011,876
Total money received through planning obligations (whenever agreed) retained at the end of 2021-22 (excluding "commuted sums" for longer term maintenance)	£5,921,190
Total money received through planning obligations (whenever agreed) retained at the end of 2021-22 as "commuted sums" for longer term maintenance	£1,057,269
Non-Monetary Contributions	
Total number of affordable housing units to be provided through planning obligations agreed in 2021-22	186
Total number of affordable housing units which were provided through planning obligations (whenever agreed) in 2021-22	40
Total number of school places for pupils to be provided through planning obligations agreed in 2021-22	Kent County Council to report
Total number of school places for pupils which were provided through planning obligations (whenever agreed) in 2021-22	Kent County Council to report

The full details of S106 contributions secured, held and paid and the types of infrastructure being delivered by these S106 contributions can be found in the latest Council's [Infrastructure Funding Statement 2021/22 here](#).

Policy CP7: Green Infrastructure

Policy CP7: Green Infrastructure Network		Performance Summary
Core Strategy Target	To protect and enhance the integrity of the existing network of green infrastructure through the lifetime of the Core Strategy. The Council will work with its partners to develop the Green Infrastructure Framework and implement proposed network improvements	

Table 25 – Policy CP7

The Council is currently preparing a Green Infrastructure (GI) Strategy which was approved at Cabinet in March 2023 to commence public consultation stages. This GI strategy aims to deliver a high-quality multifunctional network of green infrastructure that benefits people and nature and draws on an extensive evidence base and identifies the needs and opportunities for the protection and enhancement of green infrastructure in our District.

In addition, as part of the preparation of the emerging Local Plan a number of other evidence base documents have been prepared in relation to protection of green infrastructure such as the Open Space Assessment Report – available here: [Evidence Base \(doverdistrictlocalplan.co.uk\)](https://doverdistrictlocalplan.co.uk)

6. Duty to Co-operate

The duty to co-operate was introduced in the Localism Act 2011 and places a legal duty on LPAs to engage constructively, actively and on an on-going basis to maximise the effectiveness of local plan preparation relating to strategic cross-boundary matters.

Paragraph 20 of the NPPF (2021) identifies the following as strategic issues requiring cooperation: housing (including affordable housing), employment, retail, leisure and other commercial development; infrastructure for transport, telecommunications, security, waste management, water supply, wastewater, flood risk and coastal change management, and the provision of minerals and energy (including heat); community facilities (such as health, education and cultural infrastructure); and conservation and enhancement of the natural, built and historic environment, including landscapes and green infrastructure, and planning measures to address climate change mitigation and adaptation.

The Council has continued to co-operate with other LPAs in Kent and key stakeholders in planning for the District's future. This has involved a number of meetings over the monitoring period which are shown in the [2022 Duty to Cooperate Statement here](#).

Memorandum of Understanding

In February 2016, the Council adopted a Memorandum of Understanding (MOU) in respect of the duty to cooperate between the East Kent Regeneration Board members. A review of the MOU took place and was agreed in January 2021 - [East Kent MoU Update 2021 \(doverdistrictlocalplan.co.uk\)](#).

Statements of Common Ground

Paragraph 27 of the revised National Planning Policy Framework (2019) sets out the requirement for the preparation of Statements of Common Ground (SOCG) as part of the plan-making process. A SOCG is a written statement comprising factual information regarding cross-boundary impacts of a Development Plan's proposals and any necessary mitigation. As part of the preparation of the new District Local Plan, the Council will be required to prepare SOCGs with relevant stakeholders (e.g. neighbouring local planning authorities) to demonstrate the undertaking of effective and on-going co-operation. The Council has several agreed SOCGs which are available on the website here: [Evidence Base \(doverdistrictlocalplan.co.uk\)](#).

7. Community Consultation

Statement of Community Involvement

The NPPF (2021) emphasises the need to involve all sections of the community in plan-making. The Council also has a legal duty to consult residents and businesses when appropriate and legislation prescribes who must be consulted at different stages of document preparation. The Dover District Statement of Community Involvement (SCI) is the means by which the Council aims to facilitate this. The Council's SCI identifies who the Council will consult and how they will be consulted as part of the plan making process to ensure plans areas easy to access and understand as possible.

The current [Statement of Community Involvement](#) (SCI) was adopted in 2019.

2021-2022 Consultation events

During the 2021/22 monitoring period, no public consultations took place on planning documents. However, as set out elsewhere in this report, there have been several consultations held on the emerging Local Plan to 2040, and some of the supporting documentation. More information can be found within the [Regulation 22 Consultation Statement](#), which supports the Local Plan.

Appendix A – Monitoring indicators

Objective	Measurement	Base Figure	Latest Data	2016 Target	2006 Target	Comments
1 - Population and labour supply growth	Total Population	104,800 (2007)	116,600 ¹	--	111,500	Although the Core Strategy 2023 target has been exceeded, there has been a drop of 1.9% from last year
	Working age population (16-64)	73,800 (2001)	68,300 ¹	--	72,100	The number of working age individuals has dropped by 1.7% from last year
2- Transformation of Dover town	Retention of shopping spend	Convenience: 71% Comparison: 45%	Convenience: 73.6% ² Comparison: 38% ²	55%	--	
3 - Improved housing range and choice	Local Authority Housing stock:	4,646 (HSSA 2008)	4,798 (2021-22 "A" Tab) ³	--	--	The Local Authority Housing stock has increased by 11% from last year
	Total housing stock:	48,340 (HSSA 2008)	56,064 ⁴		59,500	There has been a slight increase (1%) in total housing stock from last year
	Registered social landlord stock:	2,101 (HSSA 2008)	3,140,921 units (31 March 2022) ⁵		5,350	There has been an increase of 13% from last year
	Rank in Kent by new residential build rates:	12 th (2006)	Data not available		7 th	No new data available
4 - Progress with Middle/North Deal Investigation.	Completion of investigation and preparation of Area action plan:		No progress made	Land Allocations Document adopted and implementation started. Work undertaken with landowner.		An Area Action Plan is no longer required. Development to come forward via the normal planning process.

Objective	Measurement	Base Figure	Latest Data	2016 Target	2006 Target	Comments
5 - Economic Performance	Total employment in district	47,700 (2006)	45,000 ¹		54,200	There has been a slight increase of 5% from last year
	Increase in economic activity rate:	77%	72.6% ¹	82%		The latest figures show a decrease in economic activity from 77.6% to 72.6%
	Increase in business stock	35 businesses per 1,000 population	35,000 (up 6% from 2020) ⁶	50 businesses per 1,000 pop		Data in the same format as target was not available
6 - Social disadvantage	Have no areas within 20% of most deprived in England	6 areas in 20% most deprived (2007) - National Rank of 153 out of 354 Councils	Dover falls within the higher level of deprivation in England, as indicated by the colour blue on the map. ⁷	6 areas in 20% most deprived	0 areas in 20% most deprived	Data in the same format as target was not available
	Districts national ranking:	142 (out of 326 at 2007)	107 (out of 317 local authorities in England) ⁸			Change from 133 rank last year
	Districts ranking in Kent:	5 (out of 12 at 2007)	4 (out of 12 local authorities in KCC area) ⁸			No change from last year

Objective	Measurement	Base Figure	Latest Data	2016 Target	2006 Target	Comments
7 - Improve residents' skills levels towards the County average	% working age residents, no qualifications	15.1% (2006)	Sample size too small ("Qualification table") ¹		25% over the regional average	
	% working age residents with NVQ4 +	15.4% (2006)	34.6% (Jan-Dec 2021, "Qualification table") ¹		25% less than regional average	There has been a decrease from 39.4% to 34.6%
8 - Improve ease of travel and encourage walking, cycling and use of public transport	HS1 train service in operation:	No HS1 service at 2006	Service in operation from Dover Priory Railway Station (Dec 2009). HS1 extended to Deal, Sandwich and Martin Mill.			
	Western Docks in T2 in operation:	Preparatory Stage	Dover harbour Board has begun to implement consent under Harbour Revision Order new facilities through its Western Docks Revival Project. ⁹		Operational	
	Increase sustainable commuting:	Rail – 2%, Bus – 4%, Cycle – 3%, Foot – 12% (2001 Census)	Rail: 2%, Bus 2.2%, Cycle 1.3%, Foot 8.8% (Census 2021) ¹⁰		2% increase in all modes	

Objective	Measurement	Base Figure	Latest Data	2016 Target	2006 Target	Comments
9 - Improve green infrastructure network	Improve condition:	See Figure 2.4 of the Core Strategy	See Dover Green and Blue Infrastructure Strategy Evidence Report May 2022 ¹¹		Implement proposals as shown on Figure 3.7 of the Core Strategy	
	Expand network:		See Dover Green and Blue Infrastructure Strategy Evidence Report May 2022 ¹¹			
10 - Make better use of historic assets	Number of visitors to Dover Castle	280,000	148,479 (2021) ¹²			Although lower than target Visitor numbers have increased by 24% from last year
11 - More efficient use of natural resources	Average domestic water consumption	160 litres per person per day	124 litres per day (down from 154 lpd 2012-13) ¹³		120 litres per person per day	Water consumption down by 17% from last year
	Average domestic electricity consumption	4,164 kWh per person	3,143 (2021, Mean Consumption kwh per meter domestic) ¹⁴			Electricity consumption down by 18% from last year
	Average domestic gas consumption	16,615 kWh per person	11,441.5 (2021, Mean Consumption kwh per meter domestic) ¹⁵			Gas consumption down by 6% from last year

Objective	Measurement	Base Figure	Latest Data	2016 Target	2006 Target	Comments
12 - Infrastructure provision	Provision of infrastructure: identified in table 3.3 of the Core Strategy.	2010 data	All information about new infrastructure can be found in the Infrastructure Funding Statement 2021-2022. ¹⁶		All identified infrastructure delivered	
Key: Green = on track Amber = Work ongoing Red = Area of concern to be closely monitored
