What we do with this information

To work out your earnings for benefit purposes, we need to work out your profit before taxation.

Please note that private expenses cannot be included as a business expense. You cannot include losses that have or will be replaced from insurance claims. You cannot claim losses incurred as a result of expansion costs as an expense.

Some items of business expenditure are not allowed for benefit purposes, so the income we use to work out your benefit may be higher than that used by HM Revenue & Customs. You will be sent a breakdown detailing how we have worked out your income at the time that your benefit is calculated.

Data Protection

The information contained on this form will be used by Dover District Council for the purposes indicated and will only be further used or transferred to other organizations or individuals as the law permits.
