

Welcome to
Ageing well in Dover
***- a three-year housing
strategy for older people***

A housing strategy for older people – why?

- The population is ageing
- Changing housing preferences
- Mismatch between existing housing options and requirements
- Emerging national policy

Why are we discussing this today?

- To understand your priorities and opinions:
 - What sort of home you need now and in the future
 - What sort of area you want to live in
 - What would motivate you to move
 - How we can provide better housing options for older people
- To use your feedback to inform our strategy and plans for the next few years
