Glossary

Index of Multiple Deprivation, 2010

The ID2010 is made up of 38 indicators which are grouped into seven domains each of which reflects a different aspect of deprivation.

The seven domains are combined to produce an overall Index of Multiple Deprivation (IMD) score.

Source: Department of Communities & Local Government (DCLG)

Benefits Claimants

This section looks at people who are claiming DWP benefits.

Claimant rates are calculated as a proportion of the age group eligible to claim each individual benefit

Income Support (16-59), Jobseekers Allowance (16-pension age), Incapacity Benefit/Employment & Support Allowance (16-pension age),

Pension Credit (60+), State Pension (pension age and above)

Note: State Pension Age is due to increase for women to age 65 by 2018 and then to age 66 for both men and women by 2020

Source: DWP

Worklessness

For statistical purposes benefits claimants can be grouped into Statistical Groups to indicate the main reasons why people are claiming benefits.

One of these groups shows those claiming out of work benefits, this is grouping may be used as an indication of worklessness.

Worklessness is defined as those who are jobseekers, those on incapacity benefits, lone parents who are claiming income Support and others on income related benefits.

Source: DWP

Unemployment

These figures show the annual average number of people claiming Jobseekers Allowance or National Insurance Credits.

Figures are released on a monthly basis. Monthly figures for Kent at ward and district level are available from our webpages.

Source: NOMIS

Tax Credit Recipient

Tax credits are a system of financial support designed to help families. They are part of wider government policy to provide support to parents returning to work, reduce child poverty and increase financial support for all families.

Source: HMRC

Children in Poverty

Child poverty figures show the proportion of children living in families in receipt of out of work benefits or tax credits where their reported income is less than 60% median income.

Percentages are calculated using rounded data.

Source: HMRC

Recorded Crimes

This shows the number of reported crimes per 1,000 population. Burglaries of dwellings are shown per 1,000 households.

Glossary

Population by age and gender

All numbers are separately rounded to the nearest 100. Percentages are calculated using unrounded data

Source: 2010 Population Estimates for England and Wales

Employees

The Business Register and Employment Survey (BRES) was introduced in 2008, replacing the Annual Business Inquiry as the source of employee data from the Office for National Statistics (ONS).

It counts the number of employee jobs as opposed to the number of actual employees in a workplace.

All data is rounded to the nearest hundred. Ward level statistics for part time employees may be suppressed due to the small numbers.

Source: BRES

Economic Activity - aged 16-74

This shows the number of people aged 16-74 who were economically active (working or unemployed and available for work) and those who were economically inactive (not working or available for work) as at the time of the 2001 Census.

Source: 2011 Census

People in Employment

This shows the number of people aged 16-74 who were in employment at the time of the 2001 Census.

The industry of employment, occupations of those in employment are shown. As well as distance travelled to place of work and method of travel.

Source: 2011 Census

Annual Average Unemployment

This looks at people aged 16-64 who are claiming Jobseekers Allowance or National Insurance Credits.

This includes a breakdown by age and gender.

Figures are released on a monthly basis. Monthly figures for Kent at ward and district level are available from www.kent.gov.uk/research

Source: NOMIS; Claimant Count

Worklessness

For statistical purposes benefits claimants can be grouped into Statistical Groups to indicate the main reasons why people are claiming benefits.

One of these groups shows those claiming out of work benefits, this is grouping may be used as an indication of worklessness.

Worklessness is defined as those who are jobseekers, those on incapacity benefits, lone parents who are claiming income Support and others on income related benefits.

Source: DWP

Qualifications

This looks at people aged 16-74 and the qualifications that they hold.

Level 1: equivalent to 3-4 GCSEs at grades D-E

Level 2: equivalent to 4-5 GCSEs at grade A*-C

Level 3: equivalent to 2 or more A levels

Level 4/5 - equivalent to Degree and above

Source: 2011 Census

Health

Includes information about the numbers of births & deaths, life expectancy, people with limiting long term illness, health related benefits claimants and people providing unpaid care.

Glossary

Births & Deaths

The number of births and deaths that occur in England and Wales are collated and presented in a data series called “Vital Statistics” by the Office for National Statistics (ONS).

Source: Office for National Statistics, Vital Statistics

Life Expectancy

Life expectancy is the estimated number of years a person would be expected to survive if he or she continued to experience the area’s mortality rate at that time throughout the rest of their life. The figures reflect mortality of those living in an area at that point in time rather than those born in the area.

The maps show the life expectancy for males and females in the UK at District level. Areas in red are within the 20% of all districts with the lowest life expectancy

Ward figures are available for 1999-2003

District figures are for 2008-2010

Source: Office for National Statistics, Vital Statistics

Health & Care

This data shows the number of people who consider themselves to have a limiting long term illness, health problem or disability which limits daily activities or work

Glossary

Households

A household is defined as one person living alone, or a group of people (not necessarily related) living at the same address who share cooking facilities and share a living room or sitting room or dining area

A household must contain at least one person whose place of usual residence is at the address.

A group of short-term residents living together is not classified as a household, and neither is a group of people at an address where only visitors are staying.

Source: 2011 Census, The Office for National Statistics (ONS), © Crown Copyright

Household spaces

A household space is the accommodation occupied by an individual household or, if unoccupied, available for an individual household

Households - Tenure

Tenure provides information about whether a household rents or owns the accommodation that it occupies and, if rented, combines this with information about the type of landlord who owns or manages the accommodation.

Source: 2011 Census, The Office for National Statistics (ONS), © Crown Copyright

Household Composition

This table shows the makeup of families in households at the time of the 2011 Census.

Source: 2011 Census, The Office for National Statistics (ONS), © Crown Copyright

Household size

This shows the average number of rooms and the average number of bedrooms per household in the selected area

Source: 2011 Census, The Office for National Statistics (ONS), © Crown Copyright

Occupancy rating

The occupancy rating provides a measure of under-occupancy and overcrowding. For example a value of -1 implies that there is one room too few and that there is overcrowding in the household.

There are two measures of occupancy rating, one based on the number of rooms in a household's accommodation, and one based on the number of bedrooms.

The occupancy rating assumes that every household, including one person households, requires a minimum of two common rooms (excluding bathrooms).

Glossary

Population by age and gender

All numbers are separately rounded to the nearest 100. Percentages are calculated using unrounded data

Source: 2010 Population Estimates for England and Wales

State Pension Claimants

The State Pension is a regular payment you can receive when you reach State Pension age. It is based on your National Insurance contributions.

The State Pension age (formerly aged 60 for females and 65 for males) will rise in the future. From December 2018 the State Pension age for both men and women will start to increase to reach 66 by October 2020. This will mean women's State Pension age will increase more quickly to 65 between April 2016 and November 2018.

Source: DWP - Note: percentages are based on rounded figures so may exceed 100% in some cases

Pension Credit Claimants

Pension Credit is an income related benefit for pensioners living in Great Britain and is available in two parts:

Guarantee Credit - this tops up weekly income to a guaranteed weekly level

Savings Credit - this is extra money for people who have an income higher than the Basic State Pension or who have a small amount of savings.

Mosaic Profile

Mosaic is a classification system designed by Experian to profile the characteristics of the UK population.

Each household in the UK is classified as belonging to one of 15 groups and 66 types.

These groups identify clusters of individuals and households that are as similar as possible to each other, and as different as possible to any other group.

They describe the residents of a postcode in terms of their typical demographics, their behaviours, their lifestyle characteristics and their attitudes.

This helps to ensure that the right services are provided to the areas that need them.

Glossary

Key age groups (under 20)

Source: 2013 Mid Year Estimates, The Office for National Statistics (ONS), © Crown Copyright - 2013

Child Benefit

This information shows the number of families receiving Child Benefit and the number of children living in recipient families.

Child Benefit is a tax-free payment that can be claimed by people with children. It can be claimed by anyone whose children fall within the qualifying age group, whatever their income or savings.

Source: HMRC

Tax Credit Recipient

Tax credits are a system of financial support designed to help families. They are part of wider government policy to provide support to parents returning to work, reduce child poverty and increase financial support for all families.

Tax credits are based on household circumstances and can be claimed jointly by members of a couple, or by singles.

Source: HMRC

Children in Poverty

Child poverty figures show the proportion of children living in families in receipt of out of work benefits or tax credits where their reported income is less than 60% median income.

Source: HMRC

Carers

The 2011 Census gives us data looking at the number of people who provide unpaid care. This section looks particularly at young carers (those aged 15 and under).

Source: 2011 Census, Office for National Statistics

Youth Unemployment

This looks at people aged 17-24 who are claiming Jobseekers Allowance or National Insurance Credits.

This includes a breakdown by age, gender and duration of unemployment.

Usually only people who are aged between 18 and State Pension Age who are looking for work are eligible to claim Jobseekers Allowance. In some exceptional cases people aged 17 may be able to claim.

For this reason many people aged 17 who are unemployed and looking for work will not show up in this data. These people would be more likely to be claiming Income Support, another DWP benefit.

Unfortunately statistics for Income Support claimants at age 17 are unavailable at ward level.

Source: NOMIS; Claimant Count

Young people claiming Disability Living Allowance

This data gives a count of the number of young people for whom the disability related benefit Disability Living Allowance (DLA) is claimed.

Disability Living Allowance (DLA) is a tax-free benefit for disabled children and adults to help with extra costs they may have because of a disability or health condition.
