April 2020

DOVER DISTRICT PROFILE

“A safe place to live,
work and visit”

Approximately 22% of the district is designated as part of the Kent Area of Outstanding Natural Beauty, 30% of which is designated as Heritage Coast centred on the famous White Cliffs of Dover.

The Dover district is famous for its golf courses including the Royal St George's at Sandwich, which hosted the 149th Open Golf Championship in 2020

Regeneration is progressing across the district, with new housing, retail and leisure developments, including modern commercial opportunities, adding to the districts' relocation appeal.

The Port of Dover is Europe's busiest ferry port and a vital international gateway for the movement of passengers and trade.

OUR VISION

“Responding to local resident, visitor and business community safety needs and issues. By working to resolve the root cause of crime and disorder, making the Dover district an even safer place to live, work and visit.”

THE EXECUTIVE

The Community Safety Partnership is overseen by an Executive Group, comprising of senior personnel from the responsible authorities and other agencies, including the voluntary and community sector. Sub-groups, addressing the two agreed directions of action, have been set up to deal with each priority. Each sub-group will have an action plan to address the objectives set by the Community Safety Partnership Executive.

THE SAFER STRONGER COMMUNITIES PLAN

The Safer Stronger Communities (SSC) Plan provides key stakeholders and the community with an overview of the main actions that will be taken during 2020-2023, to tackle issues highlighted in the Dover district.

The plan is reviewed annually by the Dover District Community Safety Partnership (CSP) to ensure our work remains effective and that our priorities continue to be relevant to local needs, to keep the district an even safer place.

STRATEGIC ASSESSMENT

Each year, for the duration of the SSC plan, the Partnership will carry out a Strategic Assessment. The purpose of a Strategic Assessment is to provide knowledge and understanding of community safety issues to its members.

This has been done through intelligence analysis to identify the emerging priorities by considering the patterns, trends and shifts relating to community safety. Additionally, it will include a performance assessment of how far the partnership has achieved its previous priorities and an update of those issues that the local community consider to be emerging priorities. The annual Strategic Assessment is central to the development of the Partnership Plan. We also work closely with other relevant agencies, the voluntary and community sector, the business sector and local residents.

The Dover District Community Safety Partnership is committed to working closely with the Police and Crime Commissioner (PCC) and aligns its priorities with them.

The Strategic Assessment for 2020-23, has identified directions of action:
