Additional Documentation

When applying to the Community Grant Scheme, you will be asked to provide an up to date Bank Statement and a valid Constitution all in the same name as the applicant.

1. Bank Statement

An up to date Bank Statement is required as it proves the group/organisation is set up to receive funding. Also, the information provided will also be used to cross examine questions regarding financial reserves in the application form.

2. Constitution

A valid Constitution is required, as it sets out the rules and aims of your group/organisation and proves it is currently set up and operational. We recommend providing a Constitution as it:

1. Helps people understand what your group/organisation is trying to do and will prevent confusion and/or conflict. It will also help to ensure that your aims and activities have a clear focus (and are therefore more likely to succeed).
2. Serves as a reference, helping to resolve any problems that may arise regarding which activities group members should be prioritising.
3. Helps raise the likelihood of receiving funding from other potential funders, as it proves group/organisation is both democratic and accountable. Your Constitution should provide everyone a clear procedure by which decisions are made.

For more information on drafting a constitution…

What are the legal and other requirements?

You can use the below information to understand what DDC will expect of your organisation in terms of meeting the various legal and other requirements.

- If your project is awarded a grant, you must make sure that you, your organisation and all your volunteers follow relevant Health and Safety legislation when you/they carry out the work.

- You must consider national legislation on equal opportunities, disability, access, safeguarding children and vulnerable adults etc. For example, do you have sufficient policies in place regarding these and/or will you need to arrange DBS Checks?

- If your project involves land or buildings. You must own or have secure tenure of any land or property involved in your project. If you are using someone else’s land or buildings, you must be able to supply proper written authority from them for you to carry out the project.

- If your project requires planning permission, you will be entirely responsible for obtaining this. We expect that you obtain this before making your grant application. If planning permission is not in place (or is subsequently refused) and your project cannot then go ahead your application will become ineligible. You must tell your DDC Community Development Officer as soon as possible.

Please Note

DDC is not responsible for ensuring that your project meets these requirements.

However, we may request that you provide evidence of any such arrangements in support of your application. If you are not able to supply evidence when asked, or it is deemed insufficient, your application is unlikely to progress to the next stage.

If you are unsure about whether your project needs to consider any of the above, please contact your Community Development Officer using the contact details provided on the front page.
