FI13734	1. How many licensed taxis & private hire vehicles are there within your council district? 2. How many spot checks by licensing officers have been carried out on licensed vehicles in the past 12 months? 3. Out of the checked licensed vehicles, how many passed and failed.	1. There are currently 69 hackney vehicles and 114 private hire vehicles licensed in the Dover district. 2. Each licensed vehicle is subject to an MOT carried out by qualified mechanics and a compliance inspection completed by a Licensing Officer. The policy states this is yearly for a vehicle 0-3 years old and every six months for vehicles older than 3 years (this is the majority). All checks have been completed within the time frame allowed. 3. The Council does not hold this information as this is not data that is recorded or documented. If the vehicle fails an DVSA MOT, it is repaired and retested until it passes or is removed from the fleet. Licence plates can then be transferred to another vehicle however, our software system does not indicate a reason for non-renewal or transfer of a licence, so this cannot be determined. Vehicles that do not conform with the Council's compliance test are given the opportunity to immediately rectify the issue (cleanliness, missing items such as first aid kits or fire extinguishers) and return, or they are not renewed until they are fully compliant (vehicle condition, incorrect or missing fittings or paperwork etc). The compliance checks are recorded once the vehicle has reached the required minimum standard to be licensed otherwise the vehicle would be suspended or not renewed. There have been no vehicle suspensions during the period 1 June 2022 to 1 June 2023 on the grounds of vehicle condition. There have

		been 34 incidents of licensed vehicle accident damage reported during the period 1 June 2022 to 1 June 2023, these reports are monitored until the vehicle is repaired or removed from the fleet.
